## New Director of Eurotunnel PLC

5th June 2007

We are pleased to note the announcement of **Tim Yeo MP** as a non-executive director of Eurotunnel PLC, which we hope will bring a better understanding of English sensibilities to the board and ensure the continued survival of the company that has the obligation to provide our travel rights.

He was a member of Michael Howard's shadow cabinet (who has the English end of the tunnel and all its facilities in his constituency) and is well known to a number of our ETAG members in both Houses of Parliament as well as elsewhere.

As we have been aware of his intention to accept this appointment for several weeks he has been fully briefed about our concerns, so we think it would be helpful if members were not to contact him direct at this stage.
