

ETAG

Questionnaire Results

Foundation Shareholder travel rights

10th May 2007

On 7th May we sent out an email to those on our email database requesting the completion of a questionnaire to provide ETAG with evidence for presentation to the regulatory authorities.

We had nearly 1,000 responses; the results were instructive, and are given in percentages:

- **Did you accept the Offer, and then have to withdraw?** Yes 8%
- **Were you on the point of accepting the Offer, thinking your travel rights were safe, until you found out about ETAG?** Yes 67%
- **Have you contacted Eurotunnel's shareholder information centre(s) in the last two weeks?** Yes 23%
If so, were you given false information, eg
Told rights being withdrawn at the end of the Offer &/or
Told Eurotunnel PLC was being wound up?

Percentage of those making contact given false information – 48%

The launch of this survey was an important contributory factor in the extension of the Offer Acceptance Period by six days to 21st May 2007, so that those who had already accepted without realising they were surrendering their travel rights had time to withdraw.
